Continuation of Substance of Interview including description of the general nature of what was discussed:

On 9/14/2007, agreed to cancel nonelected claim 9 & discussed amending claim 3 to specify when the heat treatment therein takes place, in order for the limitation to be more meaningful, however awaiting input from inventors in Japan.

As of 9/17/2007, the Japanese applicants were not available due to a holiday, and since there is nothing formally incorrect about claim 3, no changes will be made therein at this time..
